Little Elm, TX 75068 | (903) 278-9803 | [info@jazminpotts.com](mailto:info@jazminpotts.com) | [LinkedIn Profile](#) | [Website](#)

## EDUCATION

### University of Texas at Arlington

Certificate in UI/UX Design, **2024**

Bachelor of Science: Biology, **2020**

### Tarrant County College

Associate of Science: Chemistry, **2019**

## UI/UX INTERNSHIP

### UI/UX Design Intern | Workforce Institute | **March 2025 – Present**

- Collaborates with cross-functional teams, contributing to the development of intuitive and engaging digital experiences
- Conducts user interviews, surveys, and usability testing to gather insights, enhancing user satisfaction
- Develops wireframes and interactive prototypes using tools like Figma, facilitating clear communication of design concepts; Creates high-fidelity mockups and design assets that align with brand guidelines, ensuring consistency
- Works alongside developers, product managers, and other stakeholders to ensure seamless integration of design solutions into functional products

## UX PROJECTS

### Restaurant Finder App (Personal Project)

- Designed and prototyped a mobile app in Figma to match users with restaurants based on personalized preferences
- Conducted user interviews and usability testing to deliver an accessible, interactive, and user-friendly interface

### Air Liquide Navigation Redesign (Personal Project)

- Redesigned website navigation with breadcrumb structure and wireflows, incorporating user feedback
- Supported ongoing UX improvements by proposing Open Card Sorting to address broader navigational challenges

### Lakeridge Villas Floorplan Layout and Call-to-Action Button Redesign

- Led stakeholder interviews and restructured floorplan layout and CTA design to enhance usability and tenant engagement
- Integrated a third-party leasing app based on combined user-stakeholder input, streamlining the online application process

## EMPLOYMENT HISTORY

### Lab Technician (Contract-to-Hire) | Air Liquide | **2023 – Present**

- Performs laboratory testing and chemical analysis in a controlled environment to support product development and quality assurance initiatives
- Ensures precise and accurate data entry, maintaining detailed records of all testing procedures and outcomes in compliance with internal standards and safety protocols
- Analyzes test results using statistical methods and scientific reasoning to validate experimental hypotheses
- Collaborates cross-functionally with engineers, safety teams, and quality assurance to ensure adherence to regulatory and safety procedures
- Plays a key role in helping the company maintain a 100% surplus on services by consistently meeting tight deadlines

### Day Trader | US Stock Exchange | **2022**

- Conducted in-depth market research and technical analysis to identify trading opportunities and investor trends in real time
- Utilized chart pattern recognition, risk management strategies, and critical thinking to execute profitable trades
- Maintained detailed transaction records and portfolio tracking systems for performance analysis and tax reporting
- Leveraged trading platforms and software tools to monitor positions, analyze charts, and execute trades efficiently

### EKG Technician | Precision Monitoring | **2020 – 2022**

- Utilized advanced heart monitoring tools and software to conduct EKGs and interpret patient data accurately
- Diagnosed and resolved technical issues with cardiac monitoring equipment, saving the company approximately \$4,000 monthly by repairing rather than replacing devices

## TECHNICAL SKILLS
